

CS 3450 - Team 7even

Sprint Retrospective - Weeks 5-6

Tyler Beck

Kaden Hellewell - Scrum Master

Jonas Knudsen

What went well?

Code writing didn't have any major issues

On pace to finish within the deadline.

Started on time!

Good communication between teammates -- fixed problems between members' code quickly.

What didn't go well?

Coordination between codebases (i.e., always pushing / keeping branches up to date) could have been better.

What specific things can we do to improve?

Always push latest changes to remote.

Stay on top of merging changes to master.

Measurement criteria

We completed all story points in this sprint.

Percentage for each team member based on measurement criteria
