What pages do we need to create for this project?
Items in **bold** will be completed for Milestone 3.

- **Account creation**
  - **Customer**
- **Login (for all types of accounts)**
  - **"Manager" account will be handled as a normal account in Django**
  - **Django "Admin" account functionality not important**
- **Home page - shows login / create account**
  - **Once user logs in, take them to their account details page**
- **Bagel Order Page (for customer)**
- View Order Status
  - Customer page -- view / cancel their own orders
  - Chef/Cashier page -- view all orders regardless of customer
- **View/change Account info**
- **Owner Account Page**
  - **Add / remove accounts page**
  - Add / remove inventory stock page
  - View Analytics page

What will we complete for this two-week sprint?

- Owner Account Page
- Home Page
- Customer Account Creation Page
- Sessions Prototype
